Mathieu Bédard holds a PhD in economics from Aix-Marseille University, and a master's degree in economic analysis of institutions from Paul Cézanne University. From 2013 to 2015, he was a Lecturer at the Toulouse School of Economics. His dissertation is entitled "Economic Analysis of Bank Failures: An Essay on the Informational Properties of Bank Runs." His scholarly articles have been published in the *Journal of Business Ethics*, the *International Journal of Business*, and the *Journal des économistes et des études humaines*.

ENTREPRENEURSHIP AND ECONOMIC FREEDOM: An Analysis of Empirical Studies

This research paper looks at the empirical connection between entrepreneurship and economic freedom. As shown by the survey of all available studies, the more the institutions of a country, of a province or state, or of a metropolitan area leave economic choices in the hands of individuals rather than submit them to the political process, the more entrepreneurs there are and the more their businesses are devoted to productive activities.
